re proposal for Activity renewals.

1. Worldwide list. Good for some offices, such as LY, OSI — not for others, such as ONE, OBC, DD/P. Why can't machine sort either way?
2. How would cards be prepared? How updated? Would lose benefit of machine sorting, updating, etc. One page per would be bulky, accordion fold print is awkward.
3. Complete list is bulky. Might be useful as a reference aid, but unwieldy for removing subscriptions.
4. Amen.
5. Might be useful to post, especially if personnel change.
6. Use of summer help sounds promising, provided you can identify enough tasks that untrained people can do without undue error.
